

Warming blankets

temperature control from above

FULL BODY BLANKET

Type	– 895
Size* (LxW)	– 182 x 118 cm
Weight	– about 770 g

- The full body blanket of the **MoeckWarmingSystem®** is fitted with three air inlets
- Thanks to its built-in snap-fasteners, upper third of the full body blanket is separable, which makes it well-suited for use in surgery.

Our customers usually use this textile product solution for pre- and post-operative use.

* since the textile products shrink during the first specialized washing cycles, the specified dimensions of the usable surface (excluding air inlets) apply after several cycles and with a tolerance of ± 2 cm.
