

## Warming blankets

temperature control from above

### UPPER BODY BLANKET

Type	– 894
Size* (LxB)	– 186 x 70 cm
	– Head section 68 x 15,5 cm
Weight	– about 480 g

- The upper body blanket of the **MoeckWarmingSystem®** is fitted with two air inlets
- A head-hose integrated into the upper body blanket enables active head-temperature control
- Snap-fasteners can be used for easy and user-friendly covering of outstretched arms

Our customers usually use this textile product solution for intra-operative uses of short to medium duration.

\* since the textile products shrink during the first specialized washing cycles, the specified dimensions of the usable surface (excluding air inlets) apply after several cycles and with a tolerance of  $\pm 2$  cm.
