Head surgery	✓	Abdominal surgery	✓
Maxillofacial surgery	✓	Thoracic surgery	✓

¹ Fabric products shrink by 3–5% during the first reprocessing cycle. A tolerance of ±2 cm also applies to the stated dimensions.

² The examples of use show all possible connections available — one to max. two hoses are sufficient for proper operation.

³ The application notes are based on the practical experience of our service partners and are therefore not binding.
